ORDER FORM NA-OF-2025-0304

Perpetual Licence -- Nimbus Analytics, Inc. and Beacon Municipal Utilities

This Order Form is entered into as of May 20, 2025 between Nimbus Analytics, Inc. ("Nimbus") and Beacon Municipal Utilities Authority ("Customer"), a public body constituted under the laws of the State of Ohio.

1. Licence Grant

Nimbus grants Customer a perpetual, non-exclusive licence to install and use the Nimbus Grid Analytics software (the "Software") on Customer's own infrastructure, for up to two hundred (200) named users.

The Software is delivered by secure download. The licence is effective, and Customer's right to use the Software begins, on delivery of the download credentials and licence key, which Nimbus will provide within five (5) business days of execution of this Order Form.

The licence granted under this Section is not contingent on Customer purchasing maintenance, and does not terminate if maintenance lapses.

2. Fees

Item	Fee
Perpetual licence, Grid Analytics (200 users)	USD 310,000
Maintenance and support, 12 months	USD 62,000
On-site administrator training (4 days)	USD 18,000
Cartos Spatial Database licence, 12 months (third party)	USD 45,000
Total	USD 435,000

3. Third Party Software

The Software requires the Cartos Spatial Database, which is licensed by Cartos Geospatial LLC, an unaffiliated third party. Nimbus procures that licence on Customer's behalf and passes the cost through at the price charged to Nimbus by Cartos, without mark-up.

The Cartos licence is granted directly by Cartos to Customer under Cartos's own end user terms, and Customer is responsible for compliance with those terms. Nimbus does not warrant the Cartos Spatial Database and has no obligation to support it. Cartos sets the licence price and may revise it on renewal.

4. Maintenance and Support

For twelve (12) months from delivery, Nimbus will provide telephone and email support during US business hours and will make available all corrective patches and version updates to the Software released during that period.

Maintenance renews annually at Nimbus's then-current published maintenance rate, at Customer's option.

5. Training

Nimbus will deliver four (4) days of on-site administrator training at Customer's premises, on dates to be agreed, within six (6) months of delivery of the Software. Training is a standard Nimbus course and is offered separately to other customers at the same rate.

6. Payment

All fees are invoiced on delivery of the licence key and are payable within forty-five (45) days of the invoice date.

IN WITNESS WHEREOF, the parties have executed this document by their duly authorised representatives.

For Nimbus Analytics, Inc.: _____ Name: D. Ashworth Title: VP Commercial

For Beacon Municipal Utilities Authority: _____ Name: R. Danvers Title: Director of Finance
