ORDER FORM NA-OF-2025-0231

Issued under the Master Subscription Agreement dated January 15, 2025

This Order Form is entered into as of March 3, 2025 between Nimbus Analytics, Inc. ("Nimbus") and Calderwood Logistics Group, Inc. ("Customer"), and is governed by the Master Subscription Agreement between the parties dated January 15, 2025. Capitalised terms not defined here have the meanings given in that Agreement.

1. Subscription Term

The Subscription Term commences on April 1, 2025 and continues for thirty-six (36) months, expiring on March 31, 2028.

Customer may not terminate this Order Form for convenience. Section 4 of the Agreement (termination for material breach) continues to apply.

2. Products and Services

Nimbus will provide the following, at the fees stated. The "List Rate" column shows Nimbus's published rate card price for each item as at the date of this Order Form; the "Fee" column shows the price agreed for this transaction.

Item	List Rate	Fee
Platform subscription, Tier 3 (36 months)	USD 612,000	USD 540,000
Implementation and data migration services	USD 110,000	USD 95,000
Premium Support, 36 months	USD 60,000	USD 54,000
Total	USD 782,000	USD 689,000

3. Implementation Services

Nimbus will configure the Platform to Customer's operational workflows, including the development of custom data connectors to Customer's transport management and warehouse systems, migration of twenty-four (24) months of historical shipment data, and configuration of Customer-specific routing rules within the Platform's analytics engine.

Customer acknowledges that the Platform as configured under this Order Form is dependent on the connectors developed as part of these services, and that the analytics outputs Customer has contracted for cannot be produced from the standard Platform configuration alone.

Implementation services are estimated to complete within four (4) months of the commencement of the Subscription Term. Fees for implementation are invoiced 50% on commencement and 50% on Customer's written acceptance.

4. Support

Premium Support entitles Customer to a named technical account manager, a one (1) hour target response time for severity-one incidents, and access to all Platform updates and new modules released during the Subscription Term at no additional charge.

5. Renewal

At the end of the Subscription Term, Customer may renew the Platform subscription for a further twelve (12) months at a fee of USD 165,000. The parties acknowledge that this renewal fee represents a discount to the list rate that would otherwise apply on renewal.

The renewal right in this Section may be exercised by written notice given not less than sixty (60) days before expiry of the Subscription Term.

6. Invoicing

Subscription and support fees are invoiced annually in advance in three equal instalments of USD 198,000 on April 1, 2025, April 1, 2026 and April 1, 2027. Payment terms are net thirty (30) days from the invoice date, as provided in Section 3 of the Agreement.

IN WITNESS WHEREOF, the parties have executed this document by their duly authorised representatives.
